Objet: My experience with Bioshield....

Dear Mr. Surbeck,

After my trip to Paris, I have been using Bioshield with a lot of success. Being only able to work behind a screen for ten minutes before, I'm now able to spend 6-7 x 40-50 minutes a day without problem..

I was both interested and surprised to hear that in The Netherlands Bioshield is not well known yet. I have had headaches for more than a year, and although I tried all kinds of medical solutions, and spoke with people who dealt with issues like these on a daily basis, no one could explain me, or even warn me for the impact of working with a pc. I could be interested in putting Bioshield under the attention of both the government and companies in The Netherlands.

Yours sincerely,

Ralf Uijtttenboogaart
